EXPERIENCE

System Tron Company:

Web Development and Python Programming Intern

- Completed a 1-month internship focusing on web development and Python programming.
- Developed web projects including a calculator, Netflix clone website, To-Do List app, and Connect4 game using HTML, CSS, and JavaScript.
- Built Python-based applications such as an analog clock, Tic Tac Toe game, Snake game, and a Connect4 game.
  Enhanced skills in front-end development and backend programming.
  Collaborated with team members to debug and optimize code for better performance and user experience.

PROJECTS

E-commerce Pizza Website

Built a fully functional e-commerce pizza website using HTML, CSS, and

JavaScript. The site allowed users to:

• View responsive designs on mobile and desktop

• Use interactive elements, such as dynamic price calculations and live

updates for the shopping cart

Zomato Clone - Frontend Development

- Using live API integration to display restaurant information. Implemented dynamic data fetching, responsive design,and user-friendly interface for an immersive restaurant discovery experience.
